The Robertson Nursing Home is a Tudor style house situated on the outskirts of Godalming, within easy reach of A3, set within beautiful extensive grounds. The Home is registered to care for people over the age of sixty, who need nursing care in order to lead their lives comfortably in a warm, homely and caring atmosphere.

Robertson Nursing Home is part of Beritaz Care, a small family owned group with extensive experience and reputation in providing quality care for the elderly. We believe the success of the operation depends on providing a level of care that we will expect for our own elderly relatives. Our aim is to provide Care in friendly, relaxed yet professional environment.

At Robertson we welcome residents who require either short term care, rehabilitation, or long term permanent care or palliative care.

Accommodation is offered in both single and shared bedrooms, each of which has a nurse call system, all with bright and attractive outlooks and most with their own facilities. We welcome prospective residents bringing their own familiar and treasured items into the Home to decorate their rooms so that they may settle comfortably. We have two lounges, one with a television and the other a quiet room facing the garden where one can relax enjoying the outlook.

We offer planned nursing care that is based on taking account of our residents' individual needs and their abilities, and offering the care necessary to achieve an optimal quality of life of their choice. We have a variety of specialist equipment including hoists and pressure relieving beds.

ROBERTSON NURSING HOME

The Staff at Robertson Nursing Home endeavour to help residents plan their day to undertake a variety of activities of their choice. A comprehensive and varied activities programme, designed to stimulate the need of all our residents is arranged by our in house activities co-ordinator.

Qualified Nurses lead a team of Carers in offering highly skilled nursing care, under the supervision of the Matron. Prior to admission a full assessment of needs is identified, and a care plan developed and reviewed on a regular basis.

A Physiotherapist visits the Home each week and works with the residents to ensure mobility, wherever possible. We also have regular visits from a Chiropodist and a Hairdresser.

Our Catering Manager endeavours to offer homely cuisine, and see all residents daily to ensure that individual needs are catered for, and a variety of food is available. As well as three hot meals a day; alternatives, fruits, refreshments and snacks are available as required.

We have the services of a General Practitioner who holds a surgery within the Home on a weekly basis, and who visits as and when necessary. We also offer the services of a Chartered Physiotherapist to foster the independence of our residents. These are included in our care fees which are very competitive. Residents are free to keep their own General Practitioner, so long as they agree and are able to visit the Home when necessary.
